

HEAVY DUTY WD LUBE

DESCRIPTION

TREBLEX Heavy Duty WD Lube provides superior lubrication and heavy duty long life protection with outstanding penetration capabilities and moisture repellent action.

FEATURES

- 360° valve, use inverted if needed.
- Penetrates and lubricates all rusted metal surfaces.
- Extremely resistant to hot and cold water, sea water and salt spray.
- Effectively and quickly disperses water and prevents corrosion
- Superior to all ordinary W.D. products.
- Penetrates quickly into hard to access places.

APPLICATIONS

- Efficiently penetrates and dissolves rust and corrosion.
- Leaves a longer lasting protective and anti-corrosion film.
- Frees rusted and frozen nuts, bolts, chains, locks hinges and latches.
- Lubricates frees and loosens all seized machinery.
- Suitable for use in Marine, Mining and all extreme Industrial conditions.
- Gives superior performance to all industrial lubrication applications.

DIRECTIONS

- Shake can well before use.
- Spray evenly as required onto affected area to be treated.
- For penetration of rust and corrosion allow time for product to work and reapply if required.

SAFETY

Keep out of reach of children. Harmful if swallowed. Use with adequate ventilation. Read Material Safety Data Sheet before use.
